

MACHINES FOR WORLD CLASS CLEANING AND DISINFECTION

PESUTEKNC

FOOD INDUSTRY

ISO 9001 certified, 14001 and 18001 compliant

MORE THAN A QUARTER CENTURY OF EXPERIENCE

For more than a quarter of century, The Pesutekno machines have been trusted for their superior cleaning of knives, metal gloves, protective aprons, barrels, molds, trays and machine components from fat, meat, blood and milk protein among other things. Powerful thermal disinfection at 85C or drying can be utilized to complete the excellent hygienic result. Machines are renowned for their World class reliability. Even some units delivered during 80's are still in a daily use.

Where clean and bacteria free washing results are essential, Pesutekno's know how is at its best. The products are used by the most demanding businesses like food and pharmaceutical due to their excellent wash results, reliability and the strong industrial

level construction. In addition to the rugged industrial design, machines utilize the best available components like Mitsubishi and Siemens. Standard units can be tailored to suit the most stringent customer needs

PERFECTLY CLEAN FOR DEMANDING ENVIRONMENTS

EFFICIENT WASHING

The best possible washing result requires an efficient water and detergent circulation in the washing cabinet. In all Pesutekno washing machines the spray heads are on all three sides and on the top and bottom of the cabinet. Due to this spray head structure the cleaning results are excellent also when the machine is fully loaded. Naturally the same applies for the efficient disinfection.

RELIABLE NEW TECHNOLOGY

Pesutekno washing machines are equipped with PLC control system and operator display. Major advantages of control system: machine functions are controlled during washing for the best reliability and hygienic results. Pesutekno washing machines are compatible with all the different electric systems and washing requirements.

FINNISH KNOW HOW

The machines are designed and manufactured according to relevant specifications and standards. They are produced in Finland using materials and components accepted in EU. The independent laboratory of the Department of Public Health has tested and approved the cleaning and disinfection efficacy of Pesutekno washing machines.

YOUR COMPANY'S SAFETY AND REPUTATION ARE OUR MAIN CONCERN

In addition to many applications in the food industry our machines are producing perfect cleaning results e.g. in the pharmaceutical and electronic industry.

This cross industrial approach is helping the company to develop the kind of unique machines that provide the best available user experience.

As it is, today we are particularly happy to realize that our users around the world have learned to trust the easiness of use, reliability and furthermore the repeatable, superb washing results of our machines. With Pesutekno, you have one less item to worry about.
